HYDRANT IDENTIFICATION

Hydrant Identification is our core business. Not a sideline

Reverse screen printed Hydrant Plates

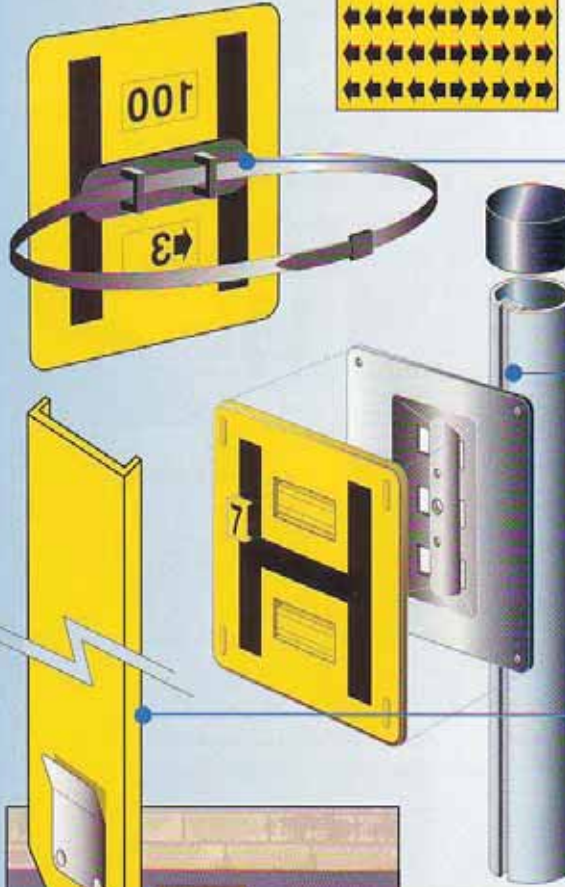

Printed onto tough, clear, Polycarbonate plastic that will not yellow and is resistant to all weather conditions. The printing inks are UV stabilised to prevent colour fading. Being reversed printed critical information cannot be removed or wear away.

Peel-off, stick-on H plate

For property walls, lamp posts etc. Where drilling / plug fixing is prohibited.

Peel off, stick on characters

A complete range of numbers, letters, arrows and blanks supplied in sheet form and printed using UV stabilised inks. Each character is applied to the rear face of the clear window and cannot be removed from the front.

Tool free plastic tie and banding.

Injection molded bracket with black nylon tie for universal fixing to street furniture. We also stock a range of fixings that cover every installation.

Injection molded system

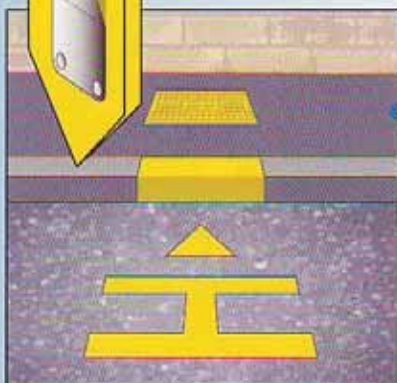

Manufactured from custom injection molded plastic which cannot colour fade, crack, swell, shrink or corrode. Encapsulated 'H' cannot rub or wear away. The complete system includes; plastic completion cap, extruded Aluminium post and anchor bar, universal backing plate, BS Injection molded Hydrant plate and clip in numbers, letters and blanks.

The 'No-Dig' post.

'No Dig' post manufactured from tough, durable and flexible extruded plastic with unique anchoring device

Duratherm

For long lasting and durable Hydrant identification. Yellow Duratherm pre-cut H markers. Designed to be easily adhered to any road surface within a couple of meters of the hydrant valve or marker plate. This will enable the easy location of the hydrant valve when traveling in a vehicle along a busy road. This product can be used in conjunction with a standard thermoplastic strip and directional arrow to give greater impact.

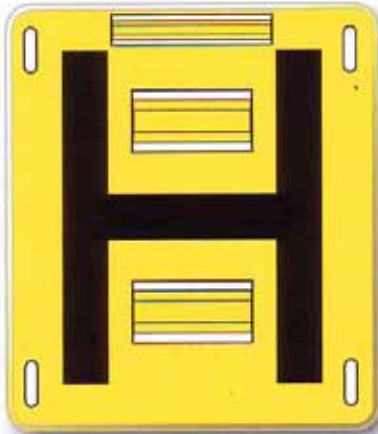

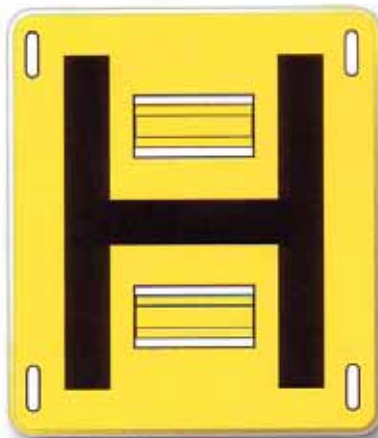

HYDRANT IDENTIFICATION

Section 1.1. B.S.3251 1976 Hydrant Plates.

Manufactured from custom injection moulded plastic which can not colour fade, crack, swell, shrink or corrode. Encapsulated 'H' can not rub or wear away.

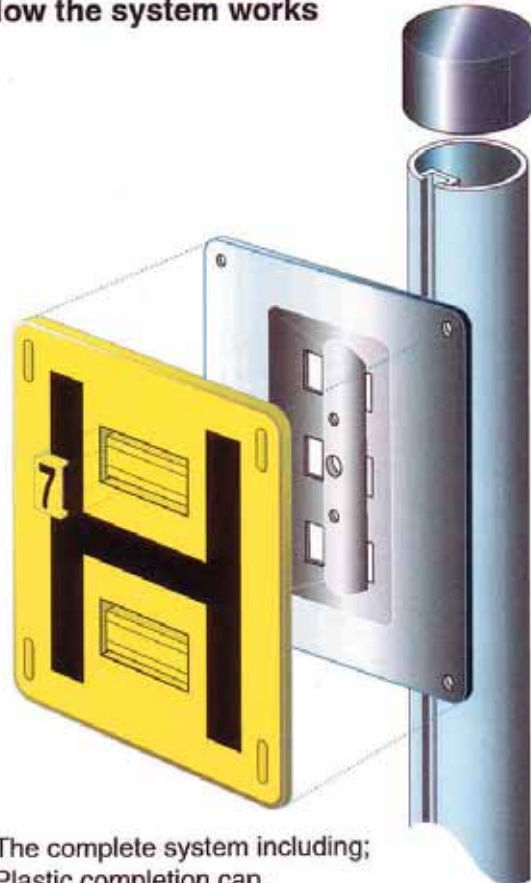

Form A with additional slot for unique 10mm numbering and lettering system. 180 W x 205 H. Part no: 45177
