Killeshal have established a working relationship with two Chinese companies to launch a full range of natural stone products, with a particular emphasis on granite, marble and sandstone. In line with our core product range, we mainly focus on the areas of paving, kerbs and bollards. However, our partners' flexibility is such that they are capable of manufacturing almost anything, using either their standard designs or to a customised format to suit your specifications. All products are available in a range of finishes.

Natural Stone Kerbs

If it is a rustic garden edging you are looking for or a street kerb that will age as well as it stands the test of time, you will have to go a very long way to find a better material than natural granite. We have sourced a multitude of quality stones from all over Asia and farther afield, each with a distinctive character to help you create a truly distinctive design. Several finishes are available at truly competitive prices, so allow your imagination to run free.

We have devised a list of standard kerb sizes which are as follows, but please do tell us if you have another specification in mind, as it is no problem whatsoever to produce to any specifications.

Standard Natural Stone Kerb Sizes:

150 x 50 x 914mm	Half Batter
230 x 125 x 914mm	Half Batter
230 x 125 x 914mm	Bullnose

...450mm and 300mm lengths also available as standard

Special Curved Kerb

Half Batter Kerb

Natural Stone Bollards

To complement our standard range of bollards and other natural stone products, we are delighted to offer you fine-crafted solid granite bollards. Our partners have standard designs, but all are hand crafted by skilled tradesmen, so specials and variations on standard bollards present no problem. Here are some of the bollard types that have been produced to date. As always, bollards are available in a variety of natural stones and finishes.

If your project requires a very personal stamp, talk to us. You will be pleasantly surprised at our level of versatility and cost competitiveness.

Standard sizes for standard double and single ring bollards: 1200 x 280mm
1200 x 300mm
900 x 280mm
900 x 300mm

Natural Stone Paving

In conjunction with our Chinese partners, Killeshal are very excited to offer you a full range of natural granite paving solutions. Our natural stone paving range is characterised by its versatility and its universally attractive appearance. Packed with care and shipped to site, quality is guaranteed and our prices are extremely attractive. All paving solutions are available in a range of finishes and can be tumbled for a rustic look. Colours and finishes have been illustrated to the best of our ability on this website, but it is advisable to make decisions on material and finish from actual stone samples.

Standard Sizes – Cobbles: 100 x 100 x 100mm
100 x 200 x 100mm
100 x 100 x 60mm
100 x 200 x 60mm
150 x 150 x 60mm

Standard Sizes – Paving: 300 x 300mm
300 x 600mm
400 x 400mm
450 x 400mm
450 x 600mm
600 x 600mm
900 x 600mm

Tactile, lozenge and corduroy flags are also available in natural stone in our standard size (400 x 400 x 50mm) in accordance with IS EN 1339: 2003:

Natural Stone Options

G603 is very popular on the Irish Market as it is very similar to traditional Wicklow granite in appearance. We have sourced the very best of Chinese Granite, which features excellent mica deposits. Beautiful when flamed, brushed, polished, bush hammered and tumbled, it looks excellent in the rain.

G636 is another stone we are very excited about. The pinkish hue which is the signature look of the stone gives it a lively feel compared to other forms of granite. Similar to G603, it looks as well in the rain as it does in the sunshine. It looks beautiful when flamed, brushed, polished, bush hammered and tumbled. As you would expect with granite, it is hard wearing and ages like a fine wine.

Here are some of our other stones available for purchase. The photo samples portray the stone when polished, but many other finishes are available for outdoor paved environments.
